

Etron Announces June 2009 Sales Report

Etron Technology (GTSM: 5351) today announced that its net sales for June 2009 were NT\$584 million (US\$18 million), up 1.6% from NT\$574 million (US\$17 million) for May 2009. Accumulated revenues from April through June totaled NT\$1,724 million (US\$52 million), up 46.9% from NT\$1,173 million (US\$35 million) for the first quarter of 2009. Accumulated revenues from January through June of this year totaled NT\$2,897 million (US\$87 million).

With support from customers, Etron has seen continuous month-on-month growth for the first six months of this year. The June revenues continued to mark a record high for 2009, while the second quarter revenues also grew significantly from the previous quarter.

The company has continuously developed products with advanced processing technology to lower costs. Offering diversified product lines applied widely in the 4C market, it will continue to make the best efforts to provide value-added products to further enhance its competitiveness and achieve a better performance.
