

## **Etron Board Approves H1 2012 Financial Results**

Etron (GTSM: 5351) Board of Directors today approved the financial results for the first half of 2012:

Accumulated revenue from January to June totaled NT\$2,917 million. Net loss was NT\$426 million. Revenue for the second quarter totaled NT\$1,560 million (US\$53 million), up 14.9% from NT\$1,357 million for the first quarter. Net losses after tax for the second quarter was NT\$155 million (US\$5 million). Loss per share was NT\$0.36, narrowed in the second quarter from the previous quarter.

Etron's revenue and gross margin in the first half of this year continue to grow quarter to quarter, although it remains relatively insignificant due to the effects of the European debt crisis and China's economic slowdown. Etron will be based on the existing product base, continue to develop the innovative products, applications, optimize the customer mix, and pursue business growth in the future.
